Management Commitment on Environment, Safety, Social, and Health (ESSH)

The Management of PT Medco Power Indonesia (MPI), are committed to place the highest standards and highest priority on the prevention and minimization of non-conformance to the negative environmental and social impacts that could harm our environment, risks to the health, safety and security of our local communities, contractors and employees, which may arise from all our operations in MPI and all subsidiaries.

The Management also committed to comply with all statutory national regulations as well as international relevant regulations and IFC Performance Standards. The Management believes that success in each of above ensures success in the others, and ultimately, this success becomes a powerful driver for robust business performance.

Safe, secure, reliable, effective, efficient and environmentally sound operations just make good business sense, and we strive to complete every task, the right way, every time.
